EDUCATION

Prva Tehnička škola Jagodina | 2014 – 2018 (*Technical High School Diploma)*

PROFESSIONAL SUMMARY

Full-Stack Developer with a focus on the Next.js ecosystem. Proficient in building responsive frontends with React and Tailwind CSS, while implementing backend logic using Server Actions, RESTful APIs, Authentication, and MongoDB.

TECHNICAL SKILLS

- **Languages/Technologies:** JavaScript, HTML5, CSS3
- **Frameworks:** React.js, Next.js, Tailwind CSS
- **Tools & Platforms:** GitHub, Git, Vercel, npm, pnpm
- **Backend/Database:** Next.js Server Functions, MongoDB, NextAuth, REST APIs

PROJECT EXPERIENCE

Master Hub | Full-Stack Web Platform

- Developed a comprehensive marketplace platform connecting professional workers with clients.
- Implemented user authentication, role-based sessions, responsive design, pagination, password recovery, profile customization, comments system, and MongoDB integration.

Learn React | Interactive Education Platform

- Created a hands-on learning environment designed to teach React fundamentals and advanced hooks through live code examples.
- Focused on translating complex technical concepts into interactive, user-friendly interfaces.

CORE COMPETENCIES

- **Web Architecture:** Deep understanding of modern client-server communication and performance optimization.
- **Problem Solving:** Strong analytical skills for debugging and refactoring code.
- **Clean Code:** Dedicated to writing readable, thoroughly documented, and scalable codebases.

LANGUAGES

- Serbian: Native
- English: Upper-intermediate
